WHITEPAPER

INTRODUCTION

HPT—Happy Planet

HPT is short for Happy Planet,

It is the exclusive digital voucher of 35 million Planet Alliance. It is an incentive unit for users who contribute behavioral value through the Planet Chain.

It is generated based on blockchain and smart contract, and the early users get it through IDO behavior. It can circulate in the whole planet alliance ecology, with a total number of 35 million, which not only has circulation value, but also is a necessary encrypted digital currency based on the application of planet chain. In addition to being used for exchange and circulation, the owner can also obtain the planet NFT.

01 Abstract

Big Dream.

It is the exclusive digital voucher of 35 million Planet Alliance. It is an incentive unit for users who contribute behavioral value through the Planet Chain. It is generated based on blockchain and smart contract, and the early users get it through IDO behavior. It can circulate in the whole planet alliance ecology, with a total number of 35 million, which not only has circulation value, but also is a necessary encrypted digital currency based on the application of planet chain. In addition to being used for exchange and circulation, the owner can also obtain the planet NFT.

Happy Planet Swap

We are one of the first to offer a live decentralized swap directly on our website right after launch.

Happy Planet Card Pay

We are one of the first coins to offer credit card for crypto payments directly on our website.

Happy Planet Wallet

On our roadmap our wallet will have users track their rewards gained from reflections, wallet balance, coin valuation, and more.

Happy Planet NFTs

Our largest project in the works is our NFT marketplace. We will allow users to create and buy/auction their own NFTs.

Happy Planet Swag

A merchandise store for \$hpt holders to proudly support their favorite planet in the real world with the proceeds to benefit the project and help more planet in need.

02 Values

TRANSPARENCY

Happy Planet is decentralized and supported by its community of enthusiasts. We encourage open communication and believe trust, transparency, and community are the 3 pillars to building longevity.

TRUST

In cryptocurrency market trust is paramount. That means full transparency not only in the community and development but also in security efforts. Happy Planet has been audited by a third party dessert finance and has burned and locked majority of the LP tokens. No rug pulls here only cute Happy Planet.

COMMUNITY

Happy Planet is one of the fastest growing and most loved communities in crypto we believe that only together we are strong. Community is everything and Happy Planet strives to include everyone from around the globe. We have multiple telegram channels dedicated to our international communities.

LONGEVITY

Happy Planet is in for the long haul. The decentralized community is fostering and adopting long term development of the ecosystem and foundation in efforts to drive real use cases, and greater rewards beyond any temporary trends.

03 Happy Planet Coin

Binance Smart Chain (BSC) was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (DeFi). BSC uses a token protocol developed by the Binance Team called BEP-20. Known for 5 second block speeds much faster than doge with 1 minute block speeds. These 2 articles compare block speed:

Doge 1 Minute:

Bep-20/BSC 5 seconds:

Advantages of the Binance smart chain are:

It's a proprietary blockchain, which will provide security and safety to all users and developers.

Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience. It's EVM-compatible and will support all of the existing Ethereum toolings along with faster and cheaper transactions.

Its on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.

Happy Planet is not responsible for the actions of the Binance smart chain network

Promote 10 IDO random complimentary one NFT card, promote 20 IDO random complimentary two NFT cards, 1400 complimentary ! After the IDO ends, it will not lock its positions and trade freely.

0 5 Happy Planet Protocol

Happy Planet employs 3 simple functions: Reflection + LP acquisition + Burn. In each trade, the transaction is charged a 10% fee, which is split 2 ways.

5% fee = redistributed to all existing holders

5% fee is split 50/50 half of which is sold by the contract into BNB, while the other half of the Space Cat tokens are paired automatically with the previously mentioned BNB and added as a liquidity pair on PancakeSwap.

30 %+ of the total supply has been burned so far so 30 %+ of the 5% redistributions are burned with every transaction

We have a charity wallet with 2.2% of the total supply which receives redistributions to donate to our charity partners.

Accomplishments

Happy Planet supports decentralized digital identity and uses it as a powerful core of the ecosystem, providing a secure authentication system. This Happy Planet allows users to truly have ownership of their identity, and their self-sovereign identity is born.

Our mission is to build the "Internet Computer Protection Fortress" to reinventing the Internet as a computer carrying security software with super functions. Internet computers are a new technology stack of unbreakable, fast, scalable to billions of users worldwide.!
